INTRODUCTORY SECTION

February 24, 2010

The Citizens of the City of Morrow, Georgia
The Honorable Mayor and Members of the City Council
of the City of Morrow, Georgia

Dear Ladies and Gentlemen:

It is a pleasure to hereby submit the Comprehensive Annual Financial Report of the City of Morrow, Georgia, for the fiscal year ended June 30, 2009. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The Comprehensive Annual Financial Report is written to be used and understood by a broad array of people. It is presented in three sections:

1) INTRODUCTORY SECTION

This introductory section, which is unaudited, includes this letter of transmittal, the City's organizational chart, a listing of the City's principal officials, and the Government Finance Officers Association's Certificate of Achievement for Excellence in Financial Reporting for Fiscal Year 2007-2008.

2) FINANCIAL SECTION

The financial section includes the general purpose financial statements and schedules, management discussion and analysis, as well as the independent auditors' report on these financial statements and additional information pertaining to individual funds and account groups.

3) STATISTICAL SECTION

The statistical section includes pertinent financial and economic data indicating trends, generally presented on a multi year basis.

During FY 2008, the City of Morrow received federal grant awards above the threshold to undergo an annual Single Audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Nonprofit Organizations." During FY 2009, the City of Morrow concluded the projects covered under the federal grant awards from FY 2008 and no single audit was required for FY 2009.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

The data in the report is believed to be accurate in all material respects and conforms substantially with the standards of the GFOA program for the Certificate of Achievement for Excellence in Financial Reporting. This report will again be submitted to the GFOA for evaluation of eligibility for the Certificate for the ninth consecutive year. All necessary disclosures have been included in order to enable the reader to gain the maximum understanding of the City's financial activity.

THE REPORTING ENTITY

The City of Morrow is located in Clayton County, approximately 10 miles south of Atlanta. The City, incorporated in 1943, has a residential population of a little under 6,000, and Clayton County has a population of 236,517, which contributes to the 70,000 plus visitors who find themselves in the City of Morrow on a daily basis.

Morrow operates under the council/manager form of government. The City's organization includes seven departments: Administration, E911 Emergency Communication, Fire, Police, Public Works, Tourism, and Economic Development. The City Manager is appointed by the Mayor and Council to directly supervise these departments. The City provides many services to Morrow's residents and visitors, including police and fire protection, emergency medical service, emergency communications, code enforcement, and economic development.

The Downtown Development Authority of the City of Morrow, GA, meets the current guidelines of the Governmental Accounting Standards Board (GASB) – Statement 14, and is therefore included in the CAFR as part of the City of Morrow' reporting entity. The Downtown Development Authority of the City of Morrow, GA, was created to develop, promote, maintain, and enhance a safe and economically viable central business district by focusing both public and private resources on the fulfillment of downtown's potential to benefit the entire community.

Another entity, the Morrow Business and Tourism Association, meets the current guidelines of the Governmental Accounting Standards Board (GASB) – Statement 14, and is therefore included in the CAFR as part of the City of Morrow' reporting entity. The Morrow Business and Tourism Association provides residents, visitors, and businesses, alike with information about upcoming events, hotels, attractions, restaurants, and many other tourist related activities.

In FY 2009, the Morrow Housing Authority was established and activated to serve the residents of the City of Morrow by developing and maintaining decent and affordable housing, and promoting quality of life improvements for all citizens in a manner that supports a thriving community.

The citizens of the City of Morrow have numerous places to go and things to do within the city's four square miles. They can walk through 162 acres of Reynolds Nature Preserve, listen to world-renowned musicians in Spivey Hall, shop at our regional mall anchored by major department stores like Rich's, J.C. Penney, and Sears, or relax in one of our ten neighborhood parks. They are kept informed of these activities and other city news via quarterly color newsletters and twice-monthly mayor/council meetings. The City's web page is fully operational and provides typical information on the various city departments, upcoming events, contact information, court schedules, hours of operation, and minutes of the most recent mayor/council meetings. The City's web site points new residents and businesses to an address where they can learn about and even download city codes and ordinances.

The City provides and supports for its citizens such programs as the P.R.O.U.D. program, Citizen Police Academies, and Gang Resistance Education & Training (G.R.E.A.T.), "certified Mentors" who become role models by building self esteem and assisting children, and the Fire Safety Education programs.

ECONOMIC CONDITION AND OUTLOOK

The City of Morrow parallels the State of Georgia's economic outlook and both parties are coping with current financial recession and all current economic predictions point to a very slow economic recovery. Locally, we are experiencing reduced retail sales that will show up in our FY 2009 business license data and the reduced retail sales will also impact sales tax revenues. Additionally, we should be prepared to see a number of additional retail store closings due to national retailer's weak balance sheets.

Sub-prime lending has created a national credit crisis and lower residential property values across the country. The City of Morrow's annual budget is reasonably insulated from this factor due to the \$170,000 homestead exemption and the fact that less than 25% of our tax digest is residential property. However, our older housing stock was built almost 40 years ago and functional obsolescence is a realistic factor for existing home re-sales.

Construction by the Georgia Department of Transportation has started on the \$46 million construction contract for the Highway 54 and I-75 interchange and related bridges. The improvements include expanded lanes that will reduce traffic delays, a new bridge on Lee Street that will reduce congestion on Highway 54, and high mast lighting that will improve safety and visibility. It will take three years to complete all phases of construction and the City must work diligently with the road contractors to reduce traffic delays as much as possible.

Our retail base has remained strong and major corporations still consider the Mt. Zion corridor as the best physical location in Clayton County. However, the City has determined that future retail construction on the I-75 corridor will have an economic impact to the City; therefore, a redevelopment plan for the Southlake Mall area and an international import/export district have been designed. The City and our economic development authority have made strategic property purchases and will facilitate new construction on these properties. Our first major purchase was the former Macy's building in Southlake Mall.

The City of Morrow has traditionally produced a conservative budget and this has been extremely beneficial in the current economic market. We believe Georgia and the City of Morrow are seeing a positive growth in our economies, albeit slowly.

MAJOR INITIATIVES

Morrow has created unique tourism opportunities with the opening of the State and National Archives. Combined they bring thousands of new visitors to the City and their average overnight stay has been projected as three days. This offers our hotels a great opportunity to target market for family reunions.

The Morrow DDA and the City of Morrow have taken aggressive action to redevelop the Southlake Mall area. The newly constructed Olde Towne Morrow District opened in the fall of 2009 with two new restaurants and several small retail shoppes. Olde Towne Morrow has a new roadway with a covered wooden bridge and six historic homes that are under restoration. The master plan allows for forty structures and creates a live, work, and play environment. The historic district provides for the diversification of our retail mix and encourages independent business and entrepreneurship.

Also in the fall of 2009, City of Morrow Conference Center opened in the former Macy's space at Southlake Mall. The Morrow Center should increase our tourism revenue to city over the long-term. The citizens of Clayton County passed a SPLOST project of \$4 million for the Morrow Conference Center in 2008 and construction will be completed in 2009. A letter of intent was requested by a hotel operator for a portion of the property and the remaining space is being marketed by the Morrow DDA to potential retail tenants.

Gateway Village continues as a successful economic redevelopment project. The new town square (Morrow Station) has been completed and the adjacent 180 space parking deck has been completed as well. New office and mixed use construction should follow on adjacent property and increase the business and property tax value to the City. A pedestrian underpass for Highway 54 @ Gateway Village has been designed and a notice to proceed from the Georgia Department of Transportation. The City was awarded a state grant for its construction. It will connect the pedestrian path system with Clayton State University, the State and National Archives, and the potential rail station in Morrow. The City of Morrow completed its second residential subdivision (Central Park) in thirty years and two new subdivisions (Brookwood and Harbin Terrace) are 50% constructed. The homes are averaging \$275,000 in value and combined will represent a 40% increase in the number of single family detached homes in Morrow. This continues to prove a healthy demand for quality homes exists in the City and that our beautification efforts are providing tangible results.

The goal of adding green space to Morrow's neighborhoods continues to make remarkable progress. During FY 2009, the city purchased and annexed 30 additional acres behind Skylark Drive zoned for parks and recreational use related to our long-term pathway project. The City also created a master plan with additional parking and new playground equipment for the City Hall Park.

The first phase of our pedestrian trail system was completed in June 2008 and the second phase should start construction this year. The trail system will provide our citizens with a significant recreational resource, while also providing them with a future alternative transportation system. The City has also been awarded a \$2,700,000 grant for an underpass for Gateway Village to ensure that pedestrian have a safe route to Clayton State University, the Archives, and the commuter rail station. The initial geotechnical work has been started and the Pond Co. has been awarded a design contract.

FINANCIAL INFORMATION

Single Audit

During FY 2008, the City was the recipient of federal or state financial assistance in excess of \$500,000 and a Single Audit was required and an independent auditor's report on compliance with requirements applicable to each major program and internal control over compliance in accordance with OMB Circular A-133 is included in the attached financial statements. The City did not receive enough newly generated federal or state grant assistance during FY 2009 to require a Single Audit during the current year.

Accounting System Internal Controls

The management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state, and county financial assistance, the City is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to federal assistance programs. This internal control structure is subject to periodic evaluation by management of the City.

Budgetary Controls

In addition to internal controls, the City maintains budgetary controls. The objective of these budgetary controls is to assure compliance with the legal provisions embodied in the annual appropriated budget approved by the Morrow City Council. Activities of the General Fund, Emergency Communications Fund, and General Capital Improvements Fund all appear in the City's annual appropriated budget. The level of budgetary control, being the level at which expenditures cannot legally exceed the appropriated amount, is established by department within an individual fund.

As demonstrated by the statements and schedules included in the financial section of this report, the City continues to meet its responsibility for sound financial management.

Pension Benefit Plan

The City contributes to the Georgia Municipal Employees Benefit System, an agent/multiple employer public employee retirement system administered by the Georgia Municipal Association. The City of Morrow Retirement Plan is a defined benefit plan that provides retirement and disability benefits and death benefits to plan members and beneficiaries. All full-time City employees and all City officials are eligible to participate in the system. The employee becomes fully vested after ten years of service. The participation by the City's employees is noncontributory; however, the city is subject to the minimum funding standards for the Public Retirement Systems Standard Law. The policy set by the City for contributing the annual pension expenses exceeds the minimum requirements of this law. The Georgia Municipal Employees Benefit System is actuarially sound with all indications that this will continue.

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. Plan participation is optional to City employees and the City has no fiduciary responsibility for the plan.

Debt Administration

The City's general obligation bonded debt legal limit was \$33,930,794, which is equal to 10% of the Assessed Valuation of property within the city limits of the City. The City had \$6,562,322 of outstanding long-term debt at June 30, 2009. The long-term debt represents \$5,135,000 in revenue bonds issued in 2009 against the City's SPLOST funds for the construction of the Morrow Conference Center and the balance of a 20-year lease between the City of Morrow and the Morrow Downtown Development Authority with the proceeds being used for the re-financing of the Morrow Welcome Center.

Cash Management

The City temporarily invests its idle cash in accounts earning competitive yields with a minimum of credit market risk. These accounts included certificates of deposits, U. S. Treasury issues, certain governmental agency securities, the State of Georgia's Local Government Investment Pool (Georgia Fund I), and numerous interest-

bearing bank accounts. All funds are either insured by the Federal Deposit Insurance Corporation or collateralized by the issuing bank's investments.

Risk Management

The City of Morrow is a member of the Georgia Interlocal Risk Management Agency or GIRMA. GIRMA is the risk management pool of local governments in Georgia that funds insurance losses in excess of \$5,000 for auto liability, general liability, errors and omissions, property damage/loss, and other lines of insurance. The City has \$1 million worth of coverage on each of these lines with the exception of property, which is covered at 100% of the value of the City's holdings.

Worker's Compensation Insurance is provided through the Georgia Workers' Compensation Self-Insurance Fund, which like GIRMA, is a pooled workers' compensation fund consisting of local governments in Georgia. Both GIRMA and the Georgia Workers' Compensation Self-Insurance Fund are financially healthy and actuarially sound.

INDEPENDENT AUDIT

Georgia statutes and law require cities to have an audit performed annually by an independent certified public accountant. The firm of Mauldin & Jenkins, Certified Public Accountants and Consultants, LLC, was selected to perform the audit. The auditors' report on General Purpose Financial Statements, Individual Fund Statements, and schedules, as well as their unqualified opinion are included in the financial section of this report.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Morrow, Georgia, for its comprehensive annual financial report for the fiscal year ended June 30, 2008. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

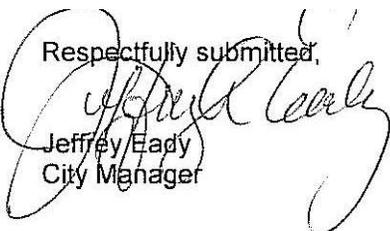

In order to be awarded the Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report (CAFR), whose contents conform to program standards. The CAFR must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City has received a Certificate of Achievement for the last fourteen fiscal years (1994-2008). We believe our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting this report to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

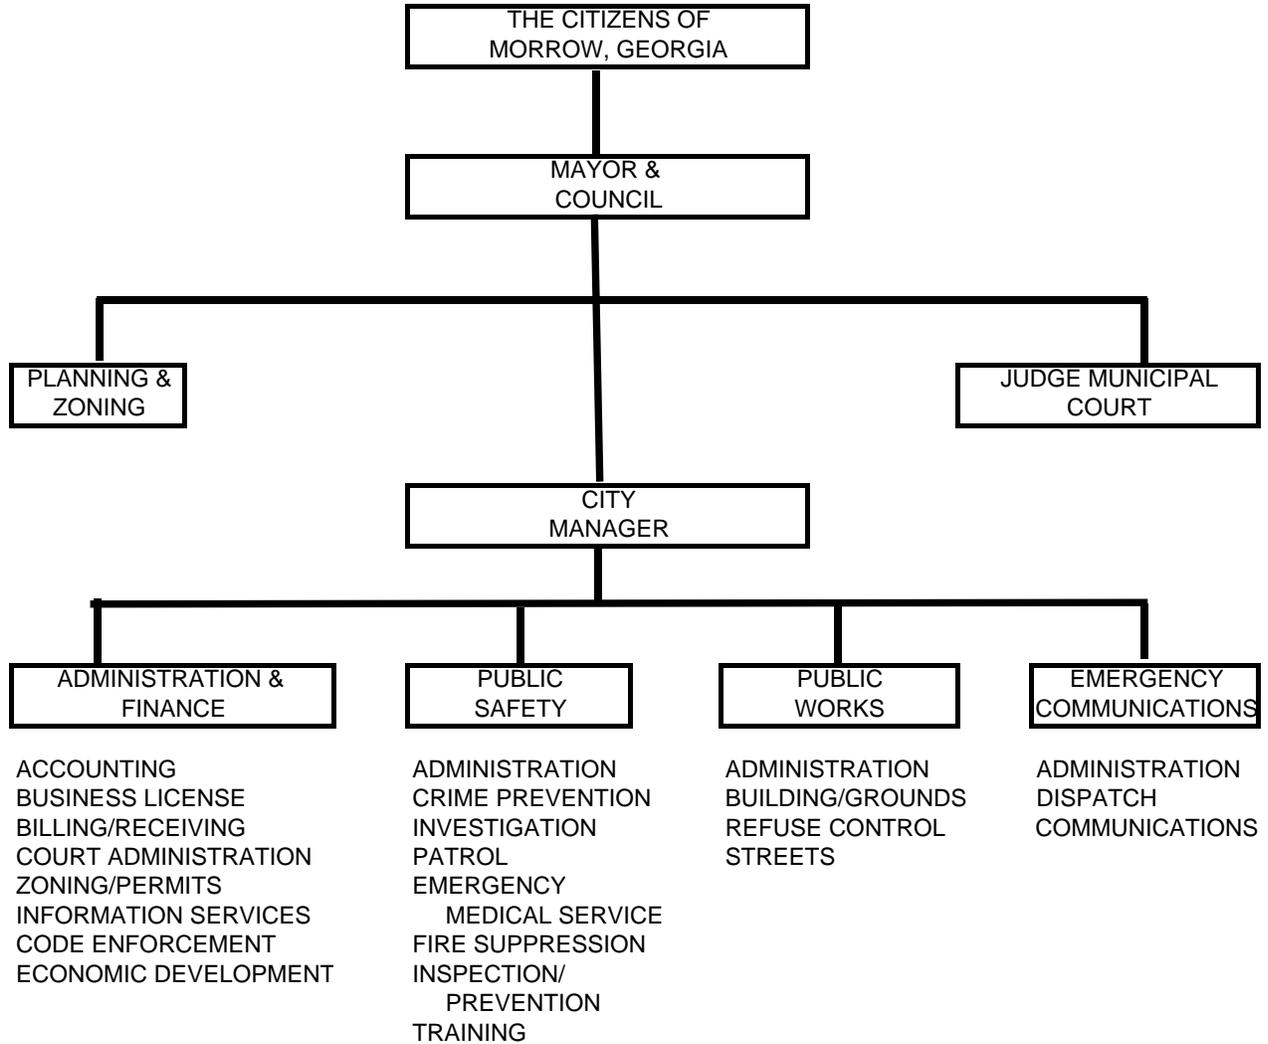

This report was produced through the dedication of the City's Finance department staff with cooperation from all city departments and our elected officials. I would like to thank the Finance Department staff, the City's department heads, and other staff members for their efforts and cooperation in preparation of these reports. Finally, I would like to thank the Morrow Mayor and City Council for their continued support, vision, guidance, and control of the City's financial affairs. They have set the example for excellence and we encourage our peers to follow their leadership.

Respectfully submitted,

Jeffrey Eady
City Manager

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

**To the Honorable Mayor and Members
of the City Council
Morrow, Georgia**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the **City of Morrow, Georgia** (the "City"), as of and for the year ended June 30, 2009, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Morrow, Georgia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Morrow, Georgia, as of June 30, 2009, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 24, 2010, on our consideration of the City of Morrow, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis (on pages 3 – 12) and the Schedule of Funding Progress (on page 48) are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Morrow, Georgia's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements of the City of Morrow, Georgia. The accompanying schedule of expenditures of special purpose local option sales tax proceeds is presented for purposes of additional analysis as required by the Official Code of Georgia 48-8-21, and is not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of special purpose local option sales tax proceeds have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly presented in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

CITY OF MORROW, GEORGIA MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Morrow, we offer readers of the City of Morrow's financial statements this narrative overview and analysis of the financial activities of the City of Morrow for the fiscal year ended June 30, 2009. It is designed to give the reader an objective and easily readable analysis of the City's financial performance. The primary intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the letter of transmittal, notes to the basic financial statements, and the financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

Key financial highlights for FY 2009 are as follows:

- The assets of the City of Morrow exceeded its liabilities at the close of the fiscal year by \$33,101,968 (net assets).
- The government's total net assets increased by \$1,156,147, due to investments made in relation to long-term capital assets.
- As of the close of the current fiscal year, the City of Morrow's governmental funds reported combined ending fund balances of \$13,340,424, an increase of \$957,322 in comparison with the prior year. Approximately 24 percent of this total amount, or \$3,188,578, is available for spending at the government's discretion (unreserved fund balance).
- During the current fiscal year, the City of Morrow began receiving SPLOST funds for capital projects for the next six years. As of June 30, 2009, the City of Morrow's governmental funds reported \$4,069,064, or approximately 30% of the total fund balances of \$13,340,424, as available for spending on capital projects in the SPLOST fund.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$3,188,578 or 24% percent of total general fund expenditures for the fiscal year. During FY 2009, the City made significant investment in capital asset expenditures related to major construction projects involving the Olde Towne Morrow Infrastructure.
- The Urban Redevelopment Agency of the City of Morrow issued bonds in the amount of \$5.135 million during 2009. The proceeds of those bonds will be used for construction of the Morrow Conference Center at Southlake Mall.

OVERVIEW OF THE FINANCIAL STATEMENTS

This comprehensive annual financial report consists of the City of Morrow's basic financial statements comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to those financial statements. The statements are organized so the reader can understand the City of Morrow as a financial whole, or as an entire operating entity.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole city, presenting both an aggregate view of the City's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short term as well as what remains for future spending. For proprietary funds, the statements offer short and long term financial information about activities the city operates like businesses, such as sanitation services. The fund financial statements also look at the City's most significant funds with all other non-major funds presented in total in one column.

The purpose of the Statement of Net Assets and Statement of Activities is to answer the question, "How did we do financially during fiscal year 2009?" These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the City's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the City as a whole, the financial position of the City has improved or diminished over the course of the fiscal year. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the City's property tax base, facility conditions, and other factors.

In the Statement of Net Assets and the Statement of Activities, the City has both governmental and business-type activities:

- Governmental Activities - Most of the City's programs and services are reported here including general government, judicial, public safety, public works, and economic development. Sales taxes, property taxes, occupation taxes, and fines and forfeitures finance most of these activities.
- Business-Type Activities – The City charges fees to cover the services it provides related to sanitation services. These activities are reported as business-type activities under proprietary funds.

The government-wide financial statements can be found on pages 13 and 14 of this report.

Reporting the City's Most Significant Funds

Fund financial statements provide detailed information about the City's major funds. The City uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the City's most significant funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Governmental Funds

Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the City's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called modified accrual accounting, which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the City's programs. The relationship between government activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The City of Morrow adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the City, the management of the City, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the City to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the City complied with the budget ordinance and whether or not the City succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the Statement of Revenue and Expenditures and Changes in Fund Balances. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes. The City of Morrow has four Special Revenue Funds: (1) Confiscated Assets Fund, (2) Hotel/Motel Tax Fund, (3) Excise Tax Fund, and (4) Emergency Communication Fund.

Proprietary Funds

Proprietary funds are activities that a City operates similar to a business in that it attempts to recover costs through charges to the user. The City of Morrow has only one type of proprietary fund. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Morrow uses enterprise funds to account for its sanitation activity. Proprietary fund statements use the accrual basis of accounting similar to the City-wide statements.

The basic proprietary fund financial statements can be found on pages 20 - 22 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as one useful indicator of a government's financial condition. The assets of the City of Morrow exceeded liabilities by \$33,101,968 as of June 30, 2009. The City's net assets increased by \$1,156,147 for the fiscal year ended June 30, 2009. The increase in net assets was due to increases in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt still outstanding that was issued to acquire those items. The City of Morrow uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Morrow's investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. The remaining balance of unrestricted net assets (\$9,234,985) may be used to meet the government's ongoing obligations to citizens and creditors.

Business-Type Activities

The only business-type activity of the City is the Sanitation Department. The majority of the revenue of the Sanitation Department is derived from user fees charged for services related to solid waste disposal.

Governmental Activities

Please note that public safety expenses of \$6,759,090 represent 63% of the total governmental expenses. Interest expense of \$73,201 represents less than 1% of total governmental expenses. Interest expense is attributable to debt financed for the Morrow Tourist Center building.

Cost of Program Services

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The table above shows, for governmental and business-type activities, the combined total cost of services and the combined net cost of services, that is, it identifies the cost of these services supported by tax revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Although program revenues make up approximately 49% of the governmental revenues, the City is dependent on tax revenues for governmental activities. The net cost of services related to governmental activities is \$4,881,464 (after adjusting for \$576,188 in Capital Grants program revenues) which approximates 98% of our total tax receipts of \$5.0 million.

Financial Analysis of the City's Funds

As noted earlier, the City of Morrow uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Fund Balance

The focus of the City of Morrow's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the City of Morrow's financing requirements. Specifically, unreserved fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2009, the total Governmental Funds of the City of Morrow reported a combined fund balance of \$13,340,424, a 7.8% percent increase from last year, primarily due significant investment in capital assets and SPLOST funds.

The general fund is the chief operating fund of the City of Morrow. At the end of fiscal year 2009, the unreserved fund balance of the General Fund was \$3,188,578 (a significant decrease from the prior year due to the continued development of the Olde Towne Morrow District in the approximate amount of \$3.1 million). The remainder of the general fund balance, \$6,121,142, is reserved to indicate that it is not available for new spending because it is already committed. The SPLOST fund unreserved fund balance was \$4,069,064 (an increase of the same amount due to the issuance of SPLOST revenue bonds during the year). The unreserved fund balance for all governmental funds was \$7,257,642. The total governmental reserved fund balance of \$6,121,142 represents commitments for prepaid expenditures (\$64,390), assets held for resale (\$2,922,381), and advances to the Downtown Development Authority (\$3,134,371). As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved governmental fund balance represents 46% of total governmental funds expenditures, while total fund balance represents 85% of that same amount.

Other Governmental Funds had total fund balances of (\$38,360). These funds include special revenue funds.

City of Morrow's Governmental Fund Balance June 30, 2009

	2009	2008
General Fund	\$ 9,309,720	\$ 12,311,400
SPLOST Fund	4,069,064	-
Other Governmental Funds	(38,360)	71,702
Total Governmental Fund Balance	<u>\$ 13,340,424</u>	<u>\$ 12,383,102</u>

MANAGEMENT'S DISCUSSION AND ANALYSIS

Proprietary Funds

The City of Morrow's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Other factors concerning the finances of this fund have already been addressed in the discussion of the City of Morrow's business-type activities.

General Fund Budgetary Highlights

- The City's budget is prepared according to Georgia law. The most significant budget fund is the General Fund.
- For the General Fund, the actual revenues of \$10,575,988 were greater than the final budget amount of \$10,310,797 by \$265,191. The difference was primarily due to increases in other taxes revenue and fines and forfeitures revenues.
- The actual expenditures of \$13,459,356 were less than the budgeted amount of \$14,332,731 by \$873,375. The final budget for the year increased by \$4.98 million due primarily to increased budget item for capital expenditures related to economic development opportunities and federally funded grant project construction.

Capital Asset and Debt Administration

Capital Assets

The City of Morrow's investment in capital assets for its governmental and business-type activities as of June 30, 2009, totals \$26,100,749 (net of accumulated depreciation), a \$5,057,879 increase from the previous year. These assets include buildings, roads and bridges, land, machinery and equipment, park facilities, and vehicles.

Major capital asset transactions during the year include the following additions (there were no significant demolitions or disposals):

- Infrastructure for Olde Towne Morrow District.
- Completion of Construction of LCI Parking Deck at Highway 54 and Clayton State University.
- Morrow's Jester's Creek Pedestrian Pathway Project.
- Investment historical buildings in Olde Morrow district, a new economic development project for the City.
- Completion of Covered Wooden Bridge in Olde Morrow District and street extension to Ring Road.
- Began Construction of Morrow Conference Center
- No major demolitions were recorded this year.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Additional information on the City's long-term debt can be found in Note 6 of the Notes to the Financial Statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Economic Factors and Next Year's Budgets and Rates

The following key economic indicators reflect the growth and prosperity of the City.

- The City of Morrow parallels the State of Georgia's economic outlook and both parties are projecting a recession over the next twelve months. Locally, we will experience a delayed impact from reduced retail sales that will show up in our FY 2010 business license data and the reduced retail sales adjustments for FY 2009 will show a lower than actual sales ratio for FY 2010. Additionally, we have seen and expect to see increased retail store closings due to national retailer's weak balance sheets.
- Sub-prime lending has created a national credit crisis and lower residential property values across the country. The City of Morrow's annual budget is reasonably insulated from this factor due to the \$170,000 homestead exemption and the fact that less than 25% of our tax digest is residential property. However, our older housing stock was built almost 40 years ago and functional obsolescence is a realistic factor for existing home re-sales.
- Construction by the Georgia Department of Transportation has started on the \$46 million construction contract for the Highway 54 and I-75 interchange and related bridges. The improvements include expanded lanes that will reduce traffic delays, a new bridge on Lee Street that will reduce congestion on Highway 54, and high mast lighting that will improve safety and visibility. It will take three years to complete all phases of construction and the City must work diligently with the road contractors to reduce traffic delays as much as possible during the construction stage.
- The goal of adding green space to Morrow's neighborhoods continues to make remarkable progress. The city purchased and annexed approximately 30 acres of future park space behind Skylark Drive for future use in our pathway project. The City has also created a master plan with additional parking and new playground equipment for the Daniel Park at City.
- The first phase of our pedestrian trail system was completed in June 2008 and the second phase should start construction this year. The trail system will provide our citizens with a significant recreational resource, while also providing them with a future alternative transportation system.
- The Morrow DDA and the City of Morrow have taken aggressive action to redevelop the Southlake Mall area. Olde Morrow has a new roadway with a covered wooden bridge and six historic homes are under restoration. The master plan allows for forty structures and creates a live, work, and play environment. The historic district provides for the diversification of our retail mix and encourages independent business and entrepreneurship.
- The City began construction on the Morrow Conference Center in the former Macy's space at Southlake Mall. The citizens of Clayton County passed a SPLOST project of \$4 million for the Morrow Conference Center and construction was completed in November 2009. A letter of intent was requested by a hotel operator for a portion of the property and the remaining space is being marketed by the Morrow DDA to potential retail tenants.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Gateway Village continues as a successful economic redevelopment project. The new town square (Morrow Station) has been completed and the adjacent 180 space parking deck should be completed this year. New office and mixed use construction should follow on adjacent property and increase the business and property tax value to the City. An underpass for Highway 54 is awaiting design review and the City was awarded a state grant for its construction. It will connect the pedestrian path system with Clayton State University, the State and National Archives, and the potential rail station in Morrow.

Contacting the City's Financial Management

This report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the City's finances and to show the City's accountability for the monies it receives. Questions concerning any of the information found in this report or requests for additional information should be directed to the Director of Finance, City of Morrow, 1500 Morrow Rd, Morrow, Georgia 30260, 770-961-4002 or via email at ddefnall@cityofmorrow.com.

CITY OF MORROW, GEORGIA

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2009**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 957,322
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	5,075,148
The net effect of the sale of fixed assets is to decrease net assets.	(17,269)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	110,332
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(4,940,040)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>(29,346)</u>
	<u>\$ 1,156,147</u>

The accompanying notes are an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

CITY OF MORROW, GEORGIA

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Morrow, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. With respect to proprietary activities, the City has adopted GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting". The City has elected to apply all applicable GASB pronouncements as well as Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) Opinions, issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. The more significant of the City's accounting policies are described below.

A. The Financial Reporting Entity

The City was incorporated in 1943 and operates under an elected Council-Manager form of government. The City Manager is the head of the administrative branch of government. As such, he is responsible for the day-to-day operations of city government. The legislative branch of the City is vested in the Mayor and four (4) Council members with an appointed City Manager. The City provides the following services and operations as authorized by its charter: public safety (police and fire); highways and streets; sanitation; parks and recreation; community development; planning and zoning; and general administrative services. As required by accounting principles generally accepted in the United States of America, these financial statements present the City and its component units, legally-separate entities for which the City is financially accountable.

Based upon criteria set forth by Governmental Accounting Standards Board (GASB) Statement 14 and as amended by GASB Statement 39, the City was determined to have the following component units as of June 30, 2009.

Morrow Business and Tourism Association. The Morrow Business and Tourism Association, Inc. (MBTA) is a vital economic partner for the City of Morrow. Tourism contracts between the MBTA and the City provide economies of scale, resource efficiencies, and employee benefit packages that neither party would be able to achieve on their own. The MBTA is presented as a discretely presented component unit.

City of Morrow Downtown Development Authority. The City of Morrow Downtown Development Authority (DDA) was formed during the year ended June 30, 2004, to become the City's redevelopment tool for commercial revitalization. Property acquisition, renovation, and demolition are only a few priorities of the DDA. The DDA is presented as a discretely presented component unit.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. The Financial Reporting Entity (Continued)

City of Morrow Housing Authority. The City of Morrow Housing Authority was formed during the year ended June 30, 2009, to provide affordable housing to the citizens of Morrow. The Housing Authority is presented as a discretely presented component unit.

These three units are reported in separate columns in the City's government-wide financial statements to emphasize that they are legally separate from the City. These units are presented as component units because the City appoints the voting majority of the Boards and is financially accountable for them. Separate financial statements for these units are not available.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, licenses, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Special Purpose Local Option Sales Tax Fund (SPLOST)** is used to account for the revenues and expenditures relating to the 2008 1% Special Purpose Local Option Sales Tax.

The City reports the following major proprietary fund:

The **Sanitation Fund** accounts for the operations of commercial and residential waste removal within the City. All activities necessary to provide such services are accounted for in this fund.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Additionally, the City reports the following fund types:

The *special revenue funds* account for revenue sources that are legally restricted to expenditure for specific purposes.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's sanitation function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services provided. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Budgets and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Budget requests are completed in April.
2. Proposed budgets are reviewed and prepared by the City Manager for submission to the Mayor and the City Commission in May.
3. Public hearings on the proposed budget are held in May and June.
4. The budget is legally adopted by the Mayor and City Commission prior to June 30.
5. All budget revisions or changes must be approved as required by Georgia law and administrative policy. Transfer of budgeted amounts in excess of \$5,000 between departments requires the approval of the City Council. This is consistent with the legal level of budgetary control as the budget is adopted at the department level. Revisions that alter the total expenditures of any department or fund must be approved by the City Council. The City Council made several immaterial supplemental budget appropriations during the year.
6. Formal budgetary integration is employed as a management control device during the year for all the governmental funds and the enterprise fund. Budgets for the enterprise funds are prepared for planning and control purposes only.
7. Budgets for the governmental funds and the enterprise funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America.

E. Cash and Cash Equivalents

Cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less meet this definition.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Deposits and Investments

For purposes of the statement of cash flows, the City considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

State statutes authorize the City to invest in obligations of the U.S. Government and agencies of corporations of the U.S. Government; obligations of any state; obligations of any political subdivision of any state; certificates of deposit or time deposits of any national state bank or savings and loan which have deposits insured by the FDIC or FSLIC; prime bankers' acceptances; repurchase agreements; and the Local Government Investment Pool of the State of Georgia ("Georgia Fund 1"). Georgia Fund 1 was created under OCGA 36-83-8 and operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The fair value of the City's position in the pool is the same as the value of pool shares (\$1 per share value). The pool is regulated by the Georgia Office of Treasury and Fiscal Services.

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair values.

G. Prepaid Items

Prepaid items are accounted for using the consumption method. A prepaid item is recognized when a cash expenditure/expense is made for goods or services that were purchased for consumption, but not consumed as of June 30.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. For the most part, the effect of interfund activity has been removed from the government-wide statement of net assets. Any residual balances outstanding between the governmental and business-type activities are reported in the government-wide statement of net assets as "internal balances." In the major fund balance sheets, these receivables and payable are classified as "due from other funds" and "due to other funds".

I. Grants from Other Governments

Federal and state governmental units represent an important source of supplementary funding used to finance housing, business development employment, construction programs, capital asset additions and other activities beneficial to the community. This funding, primarily in the form of grants, is recorded in both governmental and proprietary funds. Grant contributions in the proprietary funds, which are for the purpose of construction activities, or land easement or capital asset acquisitions, are recorded as capital contributions within the statement of revenues and expenses. For all funds, a grant receivable is recorded when the City has a right to receive the related grant amounts.

J. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. In accordance with GASB 34, the City has elected not to include infrastructure acquired or constructed prior to July 1, 2003.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend useful lives are expensed as incurred.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Capital Assets (Continued)

Major outlays for capital assets and major improvements are capitalized as projects are constructed. Interest incurred during the construction period of capital assets of the business-type activities is included as part of the capitalized value of the assets constructed. The amount of interest capitalized is calculated by offsetting interest expense incurred (from the date of borrowing until the date of completion of the project) with interest earned on investment proceeds over the same period. During the fiscal year ended June 30, 2009, there was no capitalized interest.

Depreciation is provided on the straight-line method over the following estimated useful lives:

Buildings, grounds, and improvements	15-40 years
Machinery and equipment	10 years
Furniture and fixtures	5 years
Infrastructure	15 years
Vehicles	5-10 years
Computer software	5 years
Park facilities and improvements	15 years

K. Long-Term Liabilities

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs and deferred charges, are deferred and amortized over the life of the bonds using the straight line method, which is not materially different than the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Compensated Absences

City employees accrue vacation in different amounts, according to the number of years of service. Employees under 10 years of service accrue two weeks of vacation each year. Upon reaching 10 years of service, employees can accrue three weeks per year. These days can be taken either through time off or by payment upon termination. The third week accrued for employees over 10 years of service can also be paid out as additional compensation while still employed.

Employees earn sick leave in proportion to actual hours worked. Sick leave, however, is not paid upon termination if termination is by manner other than death or retirement. One-half of the excess accrued hours over 60 days at the end of the year are paid out to employees. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

M. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve the portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund and Capital Projects Funds. Encumbrances outstanding at year end are reported as reservations of fund balances since they do not constitute expenditures or liabilities. Unencumbered appropriations lapse at the end of the year. Encumbrances are re-appropriated in the following year, except for encumbrances in the Capital Projects Funds which are continuing. Encumbrances do not represent GAAP expenditures. At June 30, 2009, there were no encumbrances outstanding.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

O. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “certain liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$6,467,296 difference are as follows:

Capital leases	\$ 1,167,830
Bonds payable	5,135,000
Less: Deferred charge for issuance costs (to be amortized over life of debt)	(133,550)
Compensated absences	259,492
Accrued interest	<u>38,524</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	<u><u>\$ 6,467,296</u></u>

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense.” The details of this \$5,075,148 difference are as follows:

Capital outlay	\$ 5,837,114
Depreciation expense	<u>(761,966)</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	<u><u>\$ 5,075,148</u></u>

Another element of that reconciliation explains that “The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.” The details of this \$4,940,040 difference are as follows:

Issuance of bonds payable	\$ (5,135,000)
Principal retirement of long-term debt	61,410
Bond issuance cost	<u>133,550</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	<u><u>\$ (4,940,040)</u></u>

Another element of that reconciliation explains that “Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.” The details of this \$29,346 difference are as follows:

Change in accrued interest	\$ (26,629)
Change in compensated absences	<u>(2,717)</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	<u><u>\$ (29,346)</u></u>

NOTES TO FINANCIAL STATEMENTS

NOTE 3. DEPOSITS AND INVESTMENTS

Total deposits and investments as of June 30, 2009, are summarized as follows:

As reported in the Statement of Net Assets:	
Cash and cash equivalents	\$ 6,948,051
Investments	699,781
	\$ 7,647,832
Cash deposited with financial institutions	\$ 7,439,267
Cash deposited with Georgia Fund 1	162,343
Federal National Mortgage Association	20,263
U.S. Treasury Note	25,959
	\$ 7,647,832

Credit risk. State statutes authorize the City to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. It is the City's policy to limit its investments to those allowed and authorized by State law. As of June 30, 2009, the City's investment in Georgia Fund 1 was rated AAAM by Standard & Poor's. The City's investment in Federal National Mortgage Association and the U.S. Treasury Notes were all rated AAA by Standard & Poor's.

At June 30, 2009, the City had the following investments:

Investment	Fair Value	Maturities (in Years) Less than 1
Georgia Fund 1	\$ 162,343	\$ 162,343
Certificates of Deposit	491,216	491,216
Federal National Mortgage Association	20,263	20,263
U.S. Treasury Note	25,959	25,959
Total	\$ 699,781	\$ 699,781

NOTES TO FINANCIAL STATEMENTS

NOTE 3. DEPOSITS AND INVESTMENTS (CONTINUED)

Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard & Poor's criteria for AAAm rated money market funds. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability.

The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1.00 per share

Interest rate risk. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial credit risk – deposits. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2009, all of the City's bank balances were covered by either federal depository insurance or by collateral held by the City's agent in the City's name.

Custodial Credit Risk – Investments. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State statutes require all investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities.

For the year ended June 30, 2009, the reporting of investments at fair value in accordance with GASB Statement No. 31 resulted in an unrealized gain of \$216 which is reflected in unrestricted investment earnings in the City's statement of activities.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. RECEIVABLES

Receivables as of year-end, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>SPLOST</u>	<u>Nonmajor Governmental</u>	<u>Sanitation</u>	<u>Total</u>
Receivables:					
Taxes	\$ 80,546	\$ -	\$ 44,339	\$ -	\$ 124,885
Accounts	162	-	14,253	109,572	123,987
Due from					
other governments	530,806	223,411	-	-	754,217
Total receivables	<u>\$ 611,514</u>	<u>\$ 223,411</u>	<u>\$ 58,592</u>	<u>\$ 109,572</u>	<u>\$ 1,003,089</u>

Property Taxes

Property taxes were levied on September 24, 2008, (Levy Date) based upon property values assessed as of January 1. The billings were mailed on October 7, 2008, and payable on or before December 17, 2008, for the fiscal year 2009 tax. Taxes not paid within 30 days of the December 17th due date are subject to property tax liens on January 17, 2009. Property tax revenues are recognized when levied to the extent they result in current receivables.

The tax rate levied during fiscal year 2009 for the City's operations was 5 mills (mill equals \$1 per thousand dollars of assessed value).

The City considers property taxes receivable at June 30, 2009, to be fully collectible and does not maintain an allowance for uncollectible property taxes.

NOTES TO FINANCIAL STATEMENTS

NOTE 5. CAPITAL ASSETS

A. Primary Government

Capital asset activity for the year ended June 30, 2009, was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Transfers</u>	<u>Ending Balance</u>
Governmental activities:					
Capital assets, not being depreciated:					
Land	\$ 4,486,812	\$ 213,189	\$ -	\$ -	\$ 4,700,001

NOTES TO FINANCIAL STATEMENTS

NOTE 6. LONG-TERM DEBT

A. Primary Government

Long-term liability activity for the year ended June 30, 2009, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental activities:					
Capital leases	\$ 1,229,240	\$ -	\$ (61,410)	\$ 1,167,830	\$ 63,828
Bonds payable	-	5,135,000	-	5,135,000	-
Compensated absences	256,775	185,735	(183,018)	259,492	189,400
Governmental activity Long-term liabilities	<u>\$ 1,486,015</u>	<u>\$ 5,320,735</u>	<u>\$ (244,428)</u>	<u>\$ 6,562,322</u>	<u>\$ 253,228</u>

Compensated absences are substantially liquidated by the General Fund.

Capital leases. At June 30, 2003, the City was obligated under a capital lease with the Clayton County Tourism Authority (the County), covering the Morrow Welcome Center building (the building). In August 2003, the lease was terminated in conjunction with a bond issue described in the following paragraph.

During August 2003, the Downtown Development Authority of the City of Morrow, a component unit of the City, issued bonds in the amount of \$1,500,000. The proceeds of this bond were used to purchase the building from the County. Additionally, the Authority and the City executed a new capital lease agreement covering the building. The gross amount of the building recorded on the City's books as a capital asset under this capital lease was \$1,500,000.

The following is a schedule of future minimum lease payments under the capital leases, and the present value of the net minimum lease payments at June 30, 2009:

Fiscal year ending June 30,		
2010		\$ 107,982
2011		107,982
2012		107,982
2013		107,982
2014		107,982
2015-2019		539,912
2020-2024		438,970
Total minimum lease payments		<u>1,518,792</u>
Less amount representing interest		(350,962)
Present value of minimum lease payments		<u>\$ 1,167,830</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 6. LONG-TERM DEBT (CONTINUED)

Revenue Bonds. During the year ended June 30, 2009, the City issued revenue bonds where the City pledged income derived from a 1% special purpose local option sales tax levied by Clayton County to pay debt service. The City's SPLOST revenue bonds outstanding at June 30, 2009, are as follows:

Series 2008 \$5,135,000 SPLOST Revenue Bonds, due in annual installments through May 1, 2015, including interest of 3.44%.	<u><u>\$ 5,135,000</u></u>
--	----------------------------

Revenue bond debt service requirements to maturity are as follows:

	Principal	Interest	Total
Fiscal year ending June 30,			
2010	\$ -	\$ 175,434	\$ 175,434
2011	-	176,644	176,644
2012	1,220,000	176,644	1,396,644
2013	1,260,000	134,676	1,394,676
2014	1,305,000	91,332	1,396,332
2015	1,350,000	46,440	1,396,440
Total	<u>\$ 5,135,000</u>	<u>\$ 801,170</u>	<u>\$ 5,936,170</u>

B. Discretely Presented Component Unit – Downtown Development Authority

The following is a summary of long-term debt activity for the Development Authority for the year ended June 30, 2009:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Development Authority					
Bonds payable	\$ 10,909,067	\$ -	\$ (401,443)	\$ 10,507,624	\$ 419,828
Note payable	805,675	-	(88,315)	717,360	102,959
Development Authority Long-term liabilities	<u>\$ 11,714,742</u>	<u>\$ -</u>	<u>\$ (489,758)</u>	<u>\$ 11,224,984</u>	<u>\$ 522,787</u>

Bonds Payable. The Downtown Development Authority of the City of Morrow, issued bonds in the amount of \$1,500,000. The proceeds of this bond were used to purchase the Morrow Welcome Center building from the County. In June 2007, the Authority issued bonds (Series 2007) in the amount of \$10,000,000. The proceeds of this bond were used to purchase the Macy's Building from the City. In May 2008, the Authority issued new bonds (Series 2008) to refinance the Series 2007 bonds at a lower interest rate. Bonds payable at June 30, 2009, are as follows:

NOTES TO FINANCIAL STATEMENTS

NOTE 6. LONG-TERM DEBT (CONTINUED)

B. Discretely Presented Component Unit – Downtown Development Authority (Continued)

Purpose	Interest Rate	Term	Due Date	Original Amount	Outstanding Amount
Welcome Center Building	3.86%	20 years	2024	\$ 1,500,000	\$ 1,167,624
Macy's Building	3.39%	10 years	2017	10,000,000	9,340,000
					<u>\$ 10,507,624</u>

Bonds Payable. (Continued) Debt service requirements to maturity on the revenue bonds are as follows:

Fiscal year ending June 30,	Principal	Interest	Total
2010	\$ 419,828	\$ 360,780	\$ 780,608
2011	436,328	346,212	782,540
2012	448,926	331,071	779,997
2013	471,625	315,490	787,115
2014	494,430	299,125	793,555
2015 - 2019	7,832,223	830,470	8,662,693
2020 - 2024	404,264	34,499	438,763
Total	<u>\$ 10,507,624</u>	<u>\$ 2,517,647</u>	<u>\$ 13,025,271</u>

Notes payable. During October 2005, the Downtown Development Authority incurred debt in the amount of \$1,400,000 to finance the purchase of an office building complex. The terms of the note are as follows:

Interest Rate	Term	Due Date	Amount
6.10%	5 years	2011	<u>\$ 717,360</u>

Debt service requirements to maturity on the notes payable are as follows:

Fiscal year ending June 30,	Principal	Interest	Total
2010	\$ 102,959	\$ 40,816	\$ 143,775
2011	614,401	12,189	626,590
Total	<u>\$ 717,360</u>	<u>\$ 53,005</u>	<u>\$ 770,365</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 7. DEFINED BENEFIT PENSION PLAN

A. Plan Description

The City of Morrow Retirement Plan is a defined benefit plan that provides retirement and disability benefits and death benefits to plan members and beneficiaries. The City's Plan is a part of the Georgia Municipal Employees Benefit System (the "System"), an agent multiple-employer public employee retirement system administered by the Georgia Municipal Association. The Public Retirement Systems Standard Law (Georgia Code Section 47-20-10) assigns the City to establish and amend the plan to the City of Morrow. The Georgia Municipal Employees Benefit System issues a publicly available financial report that includes financial statements and required supplementary information for the System. The report may be obtained by writing to the Georgia Municipal Employees Benefit System, 201 Pryor Street, S.W., Atlanta, Georgia 30303.

The City's employee participation is noncontributory. The City is required to contribute at an actuarially determined rate; the current rate is 11.54% of annual covered payroll. The contribution requirements of plan members and the City are established and may be amended by the System's Board of Trustees.

At January 1, 2009, the date of the most recent actuarial valuation, there were 178 participants consisting of the following:

Retirees and beneficiaries currently receiving benefits	31
Vested terminated employees not yet receiving benefits	36
Active employees	111
Total	178

As of the most recent valuation date, January 1, 2009, the funded status of the Plan was as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
1/1/2009	\$ 6,956,352	\$ 8,534,903	\$ 1,578,551	81.5 %	\$ 4,526,903	34.9 %

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan net assets is increasing or decreasing over time relative to the actuarial liability. Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect long-term perspective. Calculations are based on the substantive plan in effect as of January 1, 2009.

NOTES TO FINANCIAL STATEMENTS

NOTE 7. DEFINED BENEFIT PENSION PLAN (CONTINUED)

B. Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared using the accrual basis of accounting. The City's contributions are recognized as revenue in the period in which the contributions are due. Investment income is recognized by the Plan when earned.

Method Used to Value Investments. Plan investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national exchange are valued at the last reported sales price. Mortgages are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar instruments. Investments that do not have an established market are reported at estimated fair value. The method for determining the actuarial value of assets is part of the GMEBS actuarial funding policy. This method produces an adjusted actuarial value of assets.

C. Funding Policy

The City is required to contribute all amounts necessary to fund the plan, using the actuarial basis specified by the pension board. The funding policy for the Plan is to contribute an amount equal to or greater than the recommended contribution described below. Administrative costs of the Plan are financed through investment income.

The annual required contribution for the current year was determined as part of the January 1, 2009, actuarial valuation using the project unit credit actuarial cost method. The actuarial assumptions included (a) a rate of return on the investment of present and future assets of 8% per year, compounded annually and net of investment expenses and (b) projected salary increases of 5% for inflation and 0.5% for merit or seniority. The period and related method for amortizing the initial unfunded actuarial accrued liability is 30 years from 1981 and current changes in the unfunded actuarial accrued liability over 15 years for actuarial gains and losses, 20 years for plan provisions and 30 years for actuarial assumptions and cost methods as a level dollar amount. These amortization periods are closed for this plan year.

NOTES TO FINANCIAL STATEMENTS

NOTE 7. DEFINED BENEFIT PENSION PLAN (CONTINUED)

D. Annual Pension Cost

<u>Fiscal Year Beginning</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation (Asset)</u>
01/01/04	\$ 271,262	100 %	\$ -
01/01/05	252,420	100	-
01/01/06	255,766	100	-
01/01/07	299,462	100	-
01/01/08	303,559	100	-
01/01/09	522,256	100	-

NOTE 8. DEFINED CONTRIBUTION PENSION PLAN

The City participates in the Georgia Municipal Association 401(a) Defined Contribution Plan (the Plan) which is administered by the Georgia Municipal Association through their service manager, CitiStreet. The Plan provides retirement benefits to plan participants and beneficiaries. Plan provisions and contribution requirements are established and may be amended by the City. Employees are not required to contribute to the Plan. The City contributes an amount equal to 50% of the amount contributed by participants to the City's plan, except that the City shall not match in excess of 4% of the participant's annual compensation. The City's contribution for each employee is 100% vested after five (5) years of continuous service. For the fiscal year ending June 30, 2009, the City's contribution to the Plan was \$25,116.

Pursuant to the Statement Number 32 of the Governmental Accounting Standards Board "Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans", the City does not have a fiduciary relationship with the 457 plan. Accordingly, the balances and transactions of the City's 457 plan are not reported in the City's financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 9. BUDGET COMPLIANCE AND DEFICIT FUND EQUITY

A. Excess of Expenditures over Appropriations

For the year ended June 30, 2009, expenditures exceeded budget appropriations, as follows:

Fund	Excess
General Fund	
Public works - administration	\$ 20,362

This overexpenditure was funded by greater than anticipated revenues and by available fund balance.

NOTE 10. HOTEL/MOTEL LODGING TAX

The City has levied a 6% lodging tax. For the fiscal year ended June 30, 2009, \$491,856 of hotel/motel tax was collected. Of the total collected, 33% was used for the promotion of tourism within the City.

NOTE 11. INTERFUND BALANCES AND TRANSFERS

Interfund receivable and payable balances as of June 30, 2009, are as follows:

Due To	Due From			Total
	General Fund	SPLOST Fund	Nonmajor Governmental	
General Fund	\$ -	\$ 727,667	\$ 120,735	\$ 848,402
Nonmajor Governmental	24,950	-	-	24,950
Total	\$ 24,950	\$ 727,667	\$ 120,735	\$ 873,352

Interfund receivables and payables result from timing differences related to collection of taxes in Special Revenue Funds which normally clear within one to two months.

NOTES TO FINANCIAL STATEMENTS

NOTE 11. INTERFUND BALANCES AND TRANSFERS (CONTINUED)

Interfund transfers for the year ended June 30, 2009, consisted of the following:

<u>Transfer from</u>	<u>General</u>	<u>Transfer to Nonmajor Governmental</u>	<u>Total</u>
General Fund	\$ -	\$ 648,952	\$ 648,952
Nonmajor Governmental	363,728	-	363,728
Sanitation	165,807	-	165,807
Total	\$ 529,535	\$ 648,952	\$ 1,178,487

Transfers are used to (1) move revenues from the fund that statute or budget requires collecting them to the fund that the statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 12. JOINT VENTURES

Under Georgia law, the City, in conjunction with other cities and counties in the Metro Atlanta area, is a member of the Atlanta Regional Commission (ARC). During its year ended June 30, 2009, the City's membership dues were paid by Clayton County, Georgia on the City's behalf. Membership in an ARC is required by the Official Code of Georgia Annotated (OCGA), Section 50-8-34, which provides for the organizational structure of the ARC in Georgia. The ARC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a RDC. Separate financial statements may be obtained from: Atlanta Regional Commission, 3715 Northside Parkway, 200 North Creek Suite 300, Atlanta, Georgia 30327.

NOTE 13. COMMITMENTS AND CONTINGENCIES

The City is involved in various claims and matters of litigation resulting from normal operations. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City attorney, the resolution of these matters will not have a materially adverse effect on the financial condition of the City.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

NOTES TO FINANCIAL STATEMENTS

NOTE 14. RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. The City has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund and the Georgia Municipal Association Group Self-Insurance Workers' Compensation Fund, public entity risk pools currently operating as common risk management and insurance programs for member local governments.

As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pools' agents and attorneys, to follow loss reduction procedures established by the funds and to report as promptly as possible and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pools' agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment and all expenses incurred for investigation, negotiation or defense.

Settled claims in the past three years have not exceeded the coverages.

CITY OF MORROW, GEORGIA COMPONENT UNITS

The **Downtown Development Authority** is the City's redevelopment tool for commercial revitalization. The Downtown Development Authority was created for property acquisition, renovation, and demolition.

The **Morrow Business and Tourism Association** is a vital economic partner of the City of Morrow. The Tourism Association exists to provide special events to the community and promote tourism within the City. Contracts between the Tourism Association and the City also provide economies of scale, resource efficiencies, and employee benefit packages that neither party would be able to achieve on their own.

The **City of Morrow Housing Authority** was formed during the year ended June 30, 2009, to provide affordable housing to the citizens of Morrow.

Financial Trends	57 - 62
<i>These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.</i>	
Revenue Capacity	63 - 67
<i>These schedules contain information to help the reader assess the City's most significant local revenue sources.</i>	
Debt Capacity	68 - 70
<i>These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.</i>	
Demographic and Economic Information	71 and 72
<i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.</i>	
Operating Information	73 - 76
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.</i>	

Sources: Unless otherwise noted, the information in these schedules is derived from the City's financial reports for the relevant year. The City implemented GASB 34 in 2004; schedules presenting government-wide information (unless otherwise indicated) include information beginning in that year.

City of Morrow, Georgia- Direct Debt			
			<u>1,167,830</u>
Total Direct and Overlapping Debt			<u><u>\$ 2,974,732</u></u>

Sources: Assessed value data used to estimate applicable percentages provided by the County. Debt outstanding provided by the County (as of June 30, 2008) and City Finance Departments.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that could place burden on the residents and businesses of the City of Morrow. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account.

^(a) The percentage of overlapping debt applicable is estimated using the assessed gross digest. Applicable percentages were estimated by determining the portion of the City's assessed taxable value that is within the County's boundaries and dividing it by the County's total gross digest.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

**To the Honorable Mayor and Members
of the City Council
Morrow, Georgia**

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Morrow, Georgia, as of and for the year ended June 30, 2009, which collectively comprise the City of Morrow, Georgia's basic financial statements and have issued our report thereon dated February 24, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Morrow, Georgia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Morrow, Georgia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Morrow, Georgia's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiency described in the accompanying schedule of findings and responses as item 2009 - 1 to be a significant deficiency in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we believe that the significant deficiency described above is not a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Morrow, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses as item 2009 – 1.

We also noted certain matters that we reported to management of the City of Morrow, Georgia in a separate letter dated February 24, 2010.

The City of Morrow, Georgia's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. We did not audit the City of Morrow, Georgia's response and accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the City Council, others within the City, federal awarding agencies and pass through entities, and the Georgia Department of Audits and Accounts, and is not intended to be and should not be used by anyone other than these specified parties.

Mauldin & Jenkins, LLC

Macon, Georgia
February 24, 2010

CITY OF MORROW, GEORGIA
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2009

SECTION I
SUMMARY OF AUDIT RESULTS

Financial Statements

Type of auditor's report issued	Unqualified
Internal control over financial reporting: Material weaknesses identified?	___ yes <u> X </u> no
Significant deficiencies identified not considered to be material weaknesses?	<u> X </u> yes ___ none reported
Noncompliance material to financial statements noted?	___ yes <u> X </u> no

Federal Awards

There was not an audit of major federal award programs as of June 30, 2009 due to the total amount expended being less than \$500,000.

SECTION II
FINANCIAL STATEMENT FINDINGS AND RESPONSES

2009 - 1. Governmental Fund Budgets

Criteria: State of Georgia law (OCGA 36-81-3) states that: a) Each unit of local government shall adopt and operate under an annual balanced budget for the general fund, each special revenue fund, and each debt service fund in use by the local government. The annual balanced budget shall be adopted by ordinance or resolution and administered in accordance with this article; and b) a budget ordinance or resolution is balanced when the sum of estimated revenues and appropriated fund balances is equal to appropriations.

Condition: State law requires local governments to adopt annual budgets for all governmental funds. Although the City adopted an original balanced budget for the Confiscated Assets Fund, amendments to the final budget reflected a budget deficit of approximately \$73,000.

Context/Cause: During our inquiry of management about governmental funds, it was determined that the Confiscated Assets Fund budget reflected a budget deficit which led to the City not being in compliance with the state law for adopting an annual balanced budget for all governmental funds.

CITY OF MORROW, GEORGIA
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2009

SECTION II
FINANCIAL STATEMENT FINDINGS AND RESPONSES (Continued)

2009 - 1. Governmental Fund Budgets (Continued)

Effects: Lack of an annual balanced budget for the Confiscated Asset Fund has resulted in a compliance violation with state law.

Recommendation: We recommend the City timely adopt annual balanced budgets for all special revenue and debt service funds and the General Fund.

Auditee's Response: Management agrees with this finding and is in the process of developing a corrective action plan.

SECTION III
FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS

None reported.

CITY OF MORROW, GEORGIA
SCHEDULE OF PRIOR YEAR FINDINGS
FOR THE YEAR ENDED JUNE 30, 2009

2008 - 1. Debt Transactions (Component Unit – Downtown Development Authority)

For the year ending June 30, 2008, we noted the City's component unit did not properly record, in full, its debt activity during the year. Specifically, accrued interest at year end was not properly recorded and current year bond issuance costs were not properly capitalized.

Status: The above finding was corrected for the year ended June 30, 2009.
